

Cambridge 60'' x 60''

With over 24 1/2'' in depth from the deck of the tub to the floor, the Cambridge allows bathers to fully submerge themselves for a more pleasurable bathing experience. The Cambridge can hold up to 50 gallons of water.

The Cambridge is made from 100% acrylic with fibre-glass reinforcement for added strength and durability.

* Water & Air jet packages are not included in the base model of this bathtub
