

MILANO

Italian Designer Composite Bathtubs 67" x 28" x 24"

This bathtub is shipped fully assembled with an integral overflow.

Each bathtub in this new series is made from a formula of synthetic and natural materials, and finished with a polyester blended coating; designed to be resistant to scratching, scuffmarks, and UV rays.

Due to the nature of the composite material and the 3/4" thick walls, these baths provide excellent insulation, keeping bath water warmer for a longer period of time.

The Milano can hold up to 60 gallons of water.

*1 year limited manufacturer's warranty included

All measurements $\pm 1/4"$
